

25X1

Jack:

I have read these and consider them, on the whole, fairly good responses. DD/P seems more negative than he really is, since many of his objections are based on transfer of responsibilities to the DD/R, who did not exist at the time the IG report was written. DD/S section again emphasizes the present CAT Complex preoccupation with commercial and managerial aspects.

25X1 Dev - O.K.
25X1 I should like to consider comments sometime during the week of 21 May.

[redacted] should read and give you comments on the DD/P reply.
[redacted] should do the same for the DD/S, and in some cases [redacted] should find out if DD/P agrees with DD/S.

DM
